

Recreation Planning & Design

ecoPlan & Design understands the unique requirements for successful recreation planning and design. We enjoy the opportunity to lend our expertise to these projects, and have always been rewarded by well satisfied clients and very pleased end users.

City of Quincy, WA

Opens Space Study, Healthy Communities

This project, also completed in partnership with RMErickson, studied the recreational opportunities in the City of Quincy. We looked at existing and proposed park spaces, as well as school district properties. The goal was to maximize recreational opportunities within the city. Other aspects of the project included developing a survey for citizen input and researching methods of providing opportunities to encourage positive behavior in juveniles.

City of Spokane Valley, WA

Discovery Playground

This playground was developed with particular attention to special needs children. The design themes revolve around sensory perceptions of water, smell, tactile experiences and sound.

East Wenatchee, WA

Wenatchee Golf and Country Club

Working with the Wenatchee Golf and Country Club architect, ecoPlan & Design updated and revised the planting plan for trees on the golf course.
